+1600

Solutions:

- » Arctic Wolf® Managed Detection and Response
- » Arctic Wolf® Managed Risk
- » Arctic Wolf Managed Security Awareness®

The Importance of Security Operations Solutions

Today's leading organizations need to protect themselves against the most advanced cyber threats, but lack the internal resources to address the high costs, complexity, and additional personnel that are required to build an impactful security operations center.

Organizations face fundamental security challenges

Too Much Noise

Alert fatigue, vendor fatigue, compliance, and regulation fatigue—the journey never ends

Security Skill Shortage

Recruiting and retaining cybersecurity talent is hard, sometimes impossible

Cost of Response Time

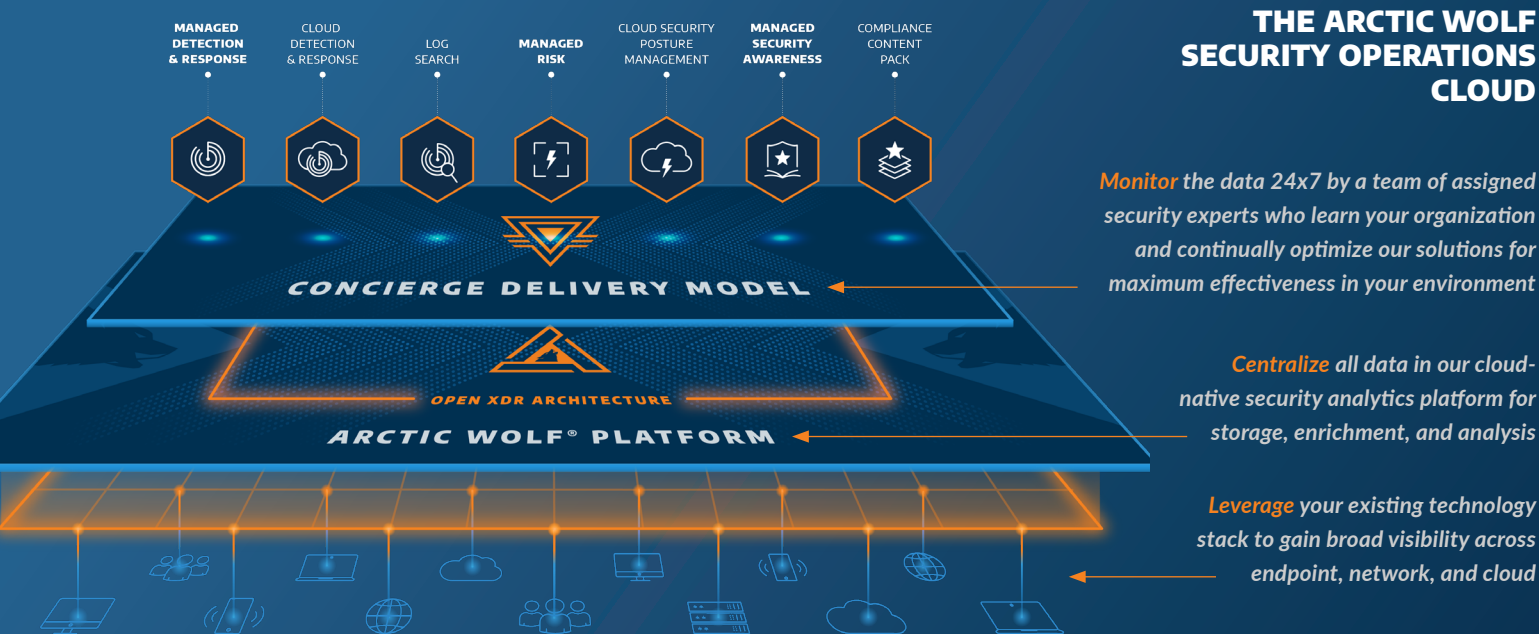

The longer it takes to respond to an incident, the more expensive it is to remediate

Arctic Wolf Security Operations

Arctic Wolf is the global leader in security operations, delivering the first cloud-native security operations platform to end cyber risk. Powered by threat telemetry spanning endpoint, network, and cloud sources, the Arctic Wolf® Security Operations Cloud ingests and analyzes trillions of security events each week to enable critical outcomes for most security use cases. The Arctic Wolf® Platform delivers automated threat detection and response at scale and empowers organizations of any size to stand up world-class security operations with the push of a button.
